

600 UK announce new arrangements with Bendertechniek B.V. to distribute the full range of Colchester lathes in The Netherlands and Belgium and also Harrison lathes in The Netherlands.

Following existing distributor LVDN's decision to relinquish these territories due to impending retirement. Bendertechniek B.V, based out of Veenendaal in The Netherlands will fully undertake these responsibilities for Colchester and Harrison lathes from 1 January 2013.

Gijsbert Bender, Managing Director of Bendertechniek B.V. said, "It is a great privilege to distribute these two extremely well known and respected brands and we are delighted to be able to offer Colchester and Harrison manual lathes, Alpha manual/CNC lathes and Tornado CNC production turning centres, which compliment our existing range of lathe and machining centre products."

Howard Bamforth, 600 UK Sales Director said, "We have enjoyed great service from Wout Landkriejer at LVDN over the last few years and want to put on record our sincere appreciation to him and his team for their dedication to Colchester and Harrison lathes. We are very excited about our new distribution partnership with Bendertechniek and we feel that they have tremendous experience in the selling of lathe products and we hope to provide a seamless transition to assist our customers, new and old."
